Painting in a tunnel

High Risk Construction Work Activity:	Involving a tunnel
What:	Painting over graffiti at a road underpass
Where:	A newly constructed council funded bike path
Who:	Typically involving 2 or more painters

1. ELIMINATION

 Avoid working in or accessing tunnels

2. MODIFICATION

Ensure adequate lighting is provided.

3. ADMINISTRATION

- Follow SWMS of Principle Contractor in regards to the accessing area where tunnels are located
- Consult with the building contractor, safety officer and / or HSR regarding any specific actions required when working in these areas.
- Ensure all tunnels are well marked and access prevented
- Do not operate plant or use substances that could affect others working in tunnels or create hazardous environments or a confined space
- Follow site rules regarding entry to tunnels.

4. PERSONAL PROTECTION

- High visibility work wear
- Gloves, safety glasses
